

Special Issue

Nuclear Medicine Imaging and Therapy in Prostate Cancer

Message from the Guest Editors

We are pleased to invite you to submit a manuscript to this Special Issue of *Diagnostics* entitled “Nuclear Medicine Imaging and Therapy in Prostate Cancer”. Prostate cancer is the most common non-cutaneous malignancy among men and is an urgent public health issue. Nuclear medicine imaging plays a key role in many clinical settings of prostate cancer, with numerous radiotracers available or under investigation. Such advancements in diagnostic imaging and therapy, together with the introduction of artificial intelligence technology in clinical practice, will accelerate the advent of true personalized medicine. In this Special Issue of *Diagnostics*, we plan to address the complexity of molecular imaging and theranostics in prostate cancer. We prioritize high-quality original studies, encourage the submission of multidisciplinary works, and welcome well-designed meta-analyses and reviews.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
