Advances in the Diagnosis and Management of Breast Cancer

Message from the Guest Editors

Breast cancer is one of the most common and deadly cancers among women worldwide. Early diagnosis and effective management are crucial to improving the survival and quality of life of patients. However, there are still many challenges and gaps in the current knowledge and practice of breast cancer diagnosis and management. This Special Issue aims to provide a comprehensive overview of the latest advances and innovations in this field, covering topics such as molecular and genetic biomarkers, imaging techniques, surgical and non-surgical treatments, personalized and precision medicine, and supportive and palliative care. The Special Issue will also highlight the current controversies and future directions of breast cancer research and clinical practice. We invite original research articles, review articles, and perspectives from experts and researchers in the field of breast cancer to contribute to this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
