

## Special Issue

# Hematology: Diagnosis and Management

### Message from the Guest Editor

Hematology is a complex field which involves the diagnosis and treatment of patients who have disorders of the blood and bone marrow. Topics in hematology include anemia, anticoagulation, bleeding and transfusion, hematologic cancers, etc., which are crucial to the delivery of high-quality patient management and care. Hematologists are both clinicians and laboratory specialists. While a large amount of them spend time providing direct clinical care to patients, diagnostic work in the laboratory is also a significant part of their workload. Hematology has experienced great advances in recent years due to improved knowledge surrounding the molecular basis of diseases, blood cell biology, and the diagnosis of blood diseases, and new treatments have entered clinical practice, consequently improving therapeutic tools. This Special Issue aims to contribute a revision of the promising advances in the diagnosis and management of hematological diseases.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
