Advances in Diagnosis and Treatment of Cardiac Arrhythmias

Message from the Guest Editors

The diagnosis and treatment of cardiac arrhythmias are constantly evolving in daily clinical practice. Patients with cardiac arrhythmias such as atrial fibrillation or ventricular tachycardia often require advanced multidisciplinary assessments and treatments with the collaboration of cardiac surgeons for hybrid ablations or hemodynamic support. The use of the latest technologies in the field of cardiac electrophysiology and cardiac devices has allowed for safer treatments with better results in the follow-up of patients affected by different heart diseases. This Special Issue “Advances in Diagnosis and Treatment of Cardiac Arrhythmias” will cover a selection of recent research topics and updated manuscripts on the innovations in the field of interventional and pharmacological treatment of cardiac arrhythmias.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
