Bronchiectasis: New Trends in Diagnosis and Management

Message from the Guest Editor

Bronchiectasis is an increasingly common, and uniquely heterogeneous disease diagnosed with permanent bronchial dilatation. Predominant aetiologies, clinical features, and comorbidities vary substantially in bronchiectasis patients. Identifying biomarkers, including inflammatory, image, genomics, microbiome and molecular endotypes, holds potential to guide individualized therapies for bronchiectasis. This Special Issue aims to publish research related to various biomarkers of bronchiectasis. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: inflammatory, image, genomics, microbiome, and molecular biomarkers. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
