Special Issue

Advances in Head and Neck Ultrasound

Message from the Guest Editors

Clinician-performed head and neck ultrasounds are expanding to office-based and surgical settings to improve the diagnostic work-up and surgical results. Furthermore, minimally invasive treatments, e.g., radiofrequency ablation and ethanol injections of thyroid cysts, are increasingly used instead of surgery. This Special Issue will cover new advancements in diagnostic head and neck ultrasound and ultrasound-guided interventions. The issue will cover all aspects from ultrasound education, the clinical impact of surgeonperformed ultrasound, the validation of new ultrasound scanning techniques/areas, advanced ultrasound technologies (contrast-enhanced ultrasound, elastography, 3D ultrasound, super-resolution imaging, etc.), and ultrasound-guided minimally invasive treatments.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
