New Insights into the Diagnosis of Viral Infections

Message from the Guest Editor

Viral infections remain a major global health challenge, as demonstrated by recent outbreaks and pandemics, highlighting the need for rapid, accurate, and innovative diagnostic approaches. Significant advancements in molecular diagnostics, serological assays, next-generation sequencing, biosensors, and point-of-care technologies have significantly improved the detection and monitoring of viral diseases. We are pleased to invite you to contribute to the Special Issue entitled *“New Insights into the Diagnosis of Viral Infections.”* This Special Issue aims to highlight recent scientific advancements and emerging technologies in viral diagnostics and their applications in clinical practice, epidemiology, and public health. Our special issue welcomes original research papers and review articles in the following fields:

- Molecular and serological diagnostics;
- Point-of-care testing;
- Next-generation sequencing applications;
- Biomarkers for viral infections;
- Artificial intelligence in diagnostics;
- Emerging and re-emerging viral diseases;
- Diagnostic assay validation and epidemiological surveillance.

We look forward to receiving your valuable contributions.

Guest Editor

Dr. Mai M. El-Daly

Special Infectious Agents Unit-BSL3, King Fahd Medical Research Center, King Abdulaziz University, Jeddah 21589, Saudi Arabia

Deadline for manuscript submissions

15 November 2027

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
