Advanced Diagnostic Imaging in Obstetrics

Message from the Guest Editor

In obstetric diagnosis, examinations without radiation exposure, such as ultrasound and MRI, are important. Recent advancements in medical equipment have improved the accuracy of these existent diagnostic imaging techniques, and further research is being conducted to develop novel and enhanced diagnostic imaging methods using new applications. This Special Issue aims to collate clinical and basic research papers that highlight the use of newer and more advanced techniques for prenatal diagnosis, management of maternal, fetal, and placental complications, gestational hypertension, fetal growth retardation, and so on. We will also accept submissions of various diagnostic imaging related to maternal emergency after delivery or in the puerperium period including obstetric hemorrhage, pre-eclampsia and maternal cardiovascular diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
