

Special Issue

Recent Advancements in the Diagnostics of Prostatitis

Message from the Guest Editors

This Special Issue offers a compelling glimpse into the groundbreaking strides made in the field. It showcases cutting-edge research that has revolutionized the diagnosis of this prevalent and often challenging condition. From innovative biomarker discoveries and diverse diagnostic microbiology methods to advanced imaging techniques, the contributions highlight the integration of precision medicine principles, enhancing early detection and treatment personalization. Moreover, the Special Issue delves into the complexities of prostatitis, addressing the need for multi-disciplinary approaches and the role of patient-centered care. Overall, this Special Issue underscores the importance of ongoing research efforts in advancing diagnostic capabilities, ultimately improving patient outcomes and the quality of life for those affected by prostatitis.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
