

Special Issue

Diagnosis, Treatment, and Management of Hair Disorders

Message from the Guest Editors

This Special Issue of *Diagnostics* will focus on the diagnosis, treatment, and management of hair disorders. Hair disorders can have a significant impact on patients' quality of life, and this Special Issue aims at providing an overview of current and emerging approaches in the field. Topics of interest include, but are not limited to, novel therapeutic interventions such as excimer laser for hair loss conditions and emerging treatments for psoriatic alopecia. We will also explore the paradoxical role of medications such as dupixent in triggering or exacerbating conditions like alopecia areata. Furthermore, submissions detailing diagnostic techniques, innovative management strategies, and comprehensive reviews of specific hair disorders are encouraged. This Special Issue aims at consolidating the latest advancements, offering valuable insights for clinicians and researchers dedicated to improving patient outcomes in hair disorders.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
