

Special Issue

Recent Advances in Breast Imaging

Message from the Guest Editor

The diagnosis of breast disease has become increasingly challenging in recent years. Breast radiologists face new opportunities with potential developments such as radiomics, artificial intelligence, and CEM. With this Special Issue dedicated to breast imaging, we want to encourage research in the most innovative sectors of breast imaging diagnosis. The aim is to provide the patient with increasingly innovative and personalized means to combat an ever-challenging breast disease landscape. This Special Issue will explore, but is not restricted to, the following topics:

- Radiomics and AI for breast cancer diagnosis and staging;
- Contrast-enhanced mammography;
- Advancements in breast imaging technology;
- Breast biopsy.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
