

Special Issue

Application of Artificial Intelligence to Oral Diseases

Message from the Guest Editor

AI technologies exhibit remarkable vitality in the diagnosis, treatment planning, and outcome prediction of oral diseases. This Special Issue, dedicated to the "Application of Artificial Intelligence to Oral Diseases", aims to highlight the latest advancements, challenges, and future directions in leveraging AI to enhance the diagnosis, treatment, and management of oral diseases. As AI technologies, including machine learning, deep learning, computer vision, and natural language processing, continue to evolve, their integration into dentistry offers unprecedented opportunities for improving patient care, streamlining workflows, and advancing precision medicine in oral health. This Special Issue provides a platform for interdisciplinary collaboration among dentists, computer scientists, engineers, and policymakers to discuss innovations that bridge the gap between AI research and clinical practice. Accepted papers will contribute to a growing body of knowledge that could redefine the standards of care in oral medicine.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
