Future Trends in Diagnostic and Interventional Radiology

Message from the Guest Editor

This Special Issue aims to serve as a platform for researchers, clinicians, and engineers to share cutting-edge findings in image-guided diagnostics and interventions. It particularly encourages submissions from authors exploring clinical impact of interventional radiology procedures, AI-driven imaging analytics, novel interventional devices, and translational research bridging radiology with oncology, neurology, cardiovascular sciences, and emerging fields like radiomics. By emphasizing rigor and innovation, this Special Issue seeks to advance patient care through multidisciplinary collaboration and technology dissemination.
