

## Special Issue

# Emerging Diagnostic Techniques and Therapeutic Strategies in Urological Oncology

### Message from the Guest Editor

Urological cancers—including prostate, bladder, kidney, and testicular malignancies—pose complex diagnostic challenges due to their diverse presentations and often subtle early-stage symptoms. Accurate and timely diagnosis is critical for improving patient outcomes and guiding effective treatment decisions. This Special Issue focuses on the latest advances in diagnostic methodologies for urological oncology. We aim to showcase innovative approaches such as advanced imaging technologies, biomarker discovery, liquid biopsy, molecular and genetic profiling, and the integration of artificial intelligence in diagnostic workflows. Contributions that explore how these techniques improve early detection, risk stratification, and disease monitoring are particularly encouraged. We welcome original research articles and comprehensive reviews that provide novel insights into diagnostic strategies for urological cancers. By gathering cutting-edge research and expert perspectives, this Special Issue seeks to advance the science of medical diagnosis in urological oncology and support the development of more precise, patient-centered care.

### Guest Editor

Dr. Francesco Chierigo

Department of Urology, ASST Santi Paolo e Carlo, University of Milan, Milan, Italy

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
