Diagnosis and Prognosis of Gynecological and Obstetric Diseases

Message from the Guest Editors

This Special Issue, “Diagnosis and Prognosis of Gynecological and Obstetric Diseases”, focuses on presenting cutting-edge research and comprehensive reviews that span the breadth of gynecological and obstetric disorders. It encompasses a wide range of manuscripts detailing innovative diagnostic techniques, from advanced imaging modalities to novel biomarker assessments. Furthermore, it explores the latest prognostic models and strategies, aiming to enhance prediction accuracy for various gynecological cancers, pregnancy complications, and other obstetric conditions. By gathering expert insights and evidence-based findings, this Special Issue strives to advance clinical management and patient outcomes in the fields of gynecology and obstetrics.
