# Neurodegenerative Disease and Cognitive Impairment in Neurological Pathologies— Diagnosis and Management

# Message from the Guest Editor

Neurodegenerative diseases represent a generic term for a series of conditions that affect neurons. Neurons are basically the "foundation stone" of the nervous system that cannot be replaced. Neurodegenerative diseases are incurable diseases that lead to the progressive degeneration and death of nerve cells. Among others, Alzheimer's, Huntington's and Parkinson's diseases affect more than 45 million people worldwide. They usually appear as we get older and unfortunately the treatment has limits. In addition, it has been identified important similarities between neurodegenerative disorders made in the fields of genetics, biochemistry, and cell biology. All these efforts revealed the presence of abnormal proteins and raised questions about how these proteins interfere with normal cellular functions and how they spread in the brain. This Special Issue welcomes submissions of original research and review articles related to any aspect of the diagnosis, molecular mechanisms and pathogenesis of neurodegenerative diseases or cognitive impairment associated with neurological pathologies, as well as the follow-up and features of novel biomarkers and treatment options.

# **About the Journal**

# Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

## Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
