Soft Tissue Sarcoma: From Diagnosis to Prognosis

Message from the Guest Editor

The diagnosis of a mesenchymal malignancy or sarcoma requires an arsenal of medical tools, including X-rays, computed tomography (CT) scans, magnetic resonance imaging (MRI), and positron emission tomography (PET) scans. However, the diagnosis or confirmation of a sarcoma still requires the involvement of one or more pathologists. Through a compilation of expert insights and cutting-edge research, this Special Issue aims to deepen understanding, discuss best practices, and shed light on the latest advancements in this tumor's diagnosis, treatment, and prognosis. It is an invaluable resource for clinicians, researchers, and patients, fostering a shared commitment to conquer this elusive disease.

Guest Editor

Prof. Dr. Consolato M. Sergi

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
