Special Issue

Emerging Biomarkers of Clinical Diagnosis

Message from the Guest Editor

Biomarkers are essential components in diagnosing a disease or pathogenic process, monitoring patients, and providing a prognosis for patients. Any biological indicator that can be tested can be used as a biomarker, including DNA, RNA, proteins, metabolites, blood, urine, and so on. Other physiological and morphological biomarkers may also be measured or used for clinical or diagnostic imaging. Biomarkers are of significant therapeutic value in the early diagnosis of disease when the clinical symptoms are not yet obvious and will prolong patients' lives or enhance their quality of life. This Special Issue investigates the rapidly developing area of emerging biomarkers in clinical diagnosis and their applications, which offer a novel approach to the clinical care of patients.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
