Advances in Emergency Medicine and Point-of-Care Testing

Message from the Guest Editors

The inclusion of biomarkers in diagnostic tools has been shown to provide critical support in several healthcare disciplines. Now, the development of point-of-care testing allows us to implement those biomarkers at the bedside, which is extremely useful in emergency medicine. This Special Issue aims to shed light on the many advances in, and cutting-edge works on, the point-of-care testing tools used in emergency settings, whether in hospital and out of hospital. For inclusion in this Special Issue, we welcome original research articles, reviews, communications, brief reports, interesting images, and so on. Research areas may include, but are not limited to, the following: emergency medicine; prehospital care; point-of-care testing tools; critical care; and bedside diagnostic tools.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
