

Special Issue

Recent Advances in Diagnostic and Interventional Radiology

Message from the Guest Editor

We would like to invite you to contribute to the Special Issue “Recent Advances in Diagnostic and Interventional Radiology”. This field is rapidly evolving, driven by the development of innovative imaging techniques and minimally invasive procedures, which have significantly enhanced our ability to diagnose and treat a wide range of conditions. Diagnostic and interventional radiology plays a critical role in modern clinical practice, offering substantial benefits in terms of patient outcomes and healthcare efficiency. This Special Issue aims to show the latest advancements in imaging technologies, interventional procedures, and clinical applications in the context of diagnostic and interventional radiology. This focus aligns with the journal’s scope by encouraging submissions that explore novel methodologies, breakthrough technologies, and innovative approaches to treatment and diagnosis. In this Special Issue, research areas may include (but are not limited to) the following:

- Advanced imaging techniques;
- Innovations in minimally invasive procedures;
- Applications of AI in radiology;
- Image-guided therapies;
- Emerging technologies in diagnostic radiology.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
