Musculoskeletal Ultrasound: Advances and Diagnostic Possibilities

Message from the Guest Editor

We are pleased to invite you to participate in this Special Issue dedicated to musculoskeletal ultrasound. This imaging technique, which is advancing thanks to improvements in device quality, is playing an increasingly important role in the diagnosis of musculoskeletal disorders. This Special Issue aims to clarify the diagnostic possibilities of ultrasound in lesions of the various elements of the locomotor system: muscle, ligament, nerve, and tendon. The goal is also to show how to carry out these examinations so that they are effective, allowing errors to be minimized as much as possible. It is an important challenge because musculoskeletal pathology is increasing, particularly due to the development of sports activities. We hope that this Special Issue will serve as a reference to best guide the management of these pathologies.

Guest Editor

Dr. Jean Louis Brasseur
Hôpital Universitaire Pitié Salpêtrière, Paris, France

Deadline for manuscript submissions

31 March 2027

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
