

Special Issue

Cystic Fibrosis: Testing, Diagnosis and Management

Message from the Guest Editor

This Special Issue aims to comprehensively overview the latest advancements in the field of Cystic Fibrosis, including novel diagnostic techniques, genetic testing strategies, personalized treatment options, and innovative management approaches. We invite submissions exploring advancements in early screening, precision medicine, disease modification, and patient care pathways that improve quality of life and longevity for individuals living with cystic fibrosis. Contributions addressing clinical trials, case studies, technological innovations, and interdisciplinary perspectives are highly encouraged.
