Diagnostic Progress in Gynecologic Oncology

Message from the Guest Editor

Gynecologic oncology is undergoing a remarkable transformation, fueled by advances in diagnostic imaging, molecular biology, and biomarker research. Early and accurate diagnosis remains fundamental to improving outcomes in patients with malignancies of the female reproductive tract, including cervical, endometrial, ovarian, vaginal, and vulvar cancers. This Special Issue aims to highlight recent advances and future perspectives in the diagnostic landscape of gynecologic cancers. We welcome submissions that focus on both established and emerging diagnostic tools—such as advanced imaging, novel pathology techniques, genomic and epigenomic profiling, and AI-assisted diagnostics—and how they contribute to earlier detection, more accurate staging, and personalized therapeutic decision-making. We invite original research articles, clinical studies, and comprehensive reviews that investigate diagnostic innovations across the spectrum of gynecologic malignancies. Our goal is to foster a multidisciplinary dialogue that promotes more efficient, accurate, and individualized approaches in gynecologic cancer diagnosis.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
