Biomarkers, Pathology and Diagnosis of Breast Cancer

Message from the Guest Editor

In women, breast cancer is the most frequently diagnosed cancer and ranks second among the causes of cancer-related death. However, men can also get this type of cancer. Common types of breast cancer include invasive (infiltrating) ductal carcinoma (IDC), lobular breast cancer, and ductal carcinoma in situ (DCIS). There are various ways of identifying and confirming the presence of breast cancer, including clinical examination, mammography, ultrasound, magnetic resonance imaging (MRI), positron emission tomography (PET) scanning, and other diagnostic techniques. This Special Issue aims to encourage high-quality original articles and reviews that can provide better insights into the current knowledge regarding the biomarkers, pathology, and diagnosis of breast cancer.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
