Diagnosis of Aortic Stenosis— 2nd Edition

Message from the Guest Editor

Calcific aortic stenosis (AS) is the most common heart valve disease in developed countries. It is characterized by the progressive fibro-calcific remodeling of valve leaflets, which evolves into severe stenosis over a number of years. AS is the third most common cardiovascular disease after coronary artery disease and systemic arterial hypertension, with a prevalence of 0.4% in the general population and 1.7% in the population >65 years old. This Special Issue aims to provide a comprehensive representation of the tools used to diagnose aortic stenosis by gathering contributions that cover all aspects of this field. This Special Issue will address fundamental questions, such as how to create a definitive diagnosis of the presence and degree of AS, and explore the most recent trials and meta-analyses on valvular disease in patients with AS.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
