Advances in Breast Disease: From Screening to Diagnosis and Therapy

Message from the Guest Editors

Research in the field of breast pathology is a currently evolving topic. There are many innovations in the diagnosis of both benign and malignant breast lesions. Although it is advisable to identify more and more biological factors with prognostic value or acting as predictors of therapeutic response, mainly in the field of breast carcinoma, there is also the need to focus on fibroepithelial entities that represent a well-defined but heterogeneous spectrum of lesions (i.e., phylloid tumors) or underrecognized/not well-defined non-fibroadenomas/phylloid tumors' stromo-epithelial lesions. Accordingly, this Special Issue is dedicated to updates in breast cancer and phylloid tumors from radiological/pathological diagnosis to therapy. In addition, proposals for new benign and/or malignant entities are welcomed.

Guest Editors

Dr. Giada Maria Vecchio

Dr. Isabella Castellano

Dr. Lorenzo Memeo

Dr. Antonio Rizzo

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
