Challenges in Urology: From the Diagnosis to the Management—2nd Edition

Message from the Guest Editors

We are pleased to announce this Special Issue addressing the challenges encountered in the field of urology. Urological conditions present a myriad of complexities, ranging from benign disorders to life-threatening malignancies, necessitating innovative approaches to diagnosis and management. This Special Issue aims to bring together a collection of articles that shed light on the various challenges faced by urologists worldwide. From the complexities of surgical interventions to the intricacies of medical management, we seek to explore the multifaceted nature of urological challenges and the strategies employed to overcome them. We invite researchers, clinicians, and experts in the field to contribute original research papers, review articles, and case studies that delve into the diverse challenges encountered in urology. Whether it be navigating the complexities of robotic surgery, addressing the rising incidence of urinary tract infections, or grappling with the psychological impact of urological disorders, we welcome contributions that provide insights and solutions to these challenges.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
