Laboratory Diagnosis in Microbial Diseases, 2nd Edition

Message from the Guest Editor

The current diagnosis of infectious diseases largely depends on conventional phenotypic tools. However, typically the phenotypic tools are heavily based on culture and susceptible to bias in testing handling. Specifically, phenotypic result is the final phenomenon of protein expression in vitro. The details of genomics and proteomics cannot be seen in the conventional phenotypic assays. What we can see now is just the tip of the iceberg of infectious diseases. Thus, I would like to invite outstanding researchers in the community to contribute your excellent studies to the Special Issue. The targeted articles include, but not limited to, genomic or proteomic researches focusing broadening our view on infectious diseases. I believe these will form the fundamental basis and considerable impact on further precise measurement of infectious diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
