Special Issue

Diagnosis in Dermatology and Venereology

Message from the Guest Editor

The aim of this Special Issue is to provide a comprehensive exploration of the latest advancements and methodologies in the diagnosis of dermatological and venereological conditions. This Special Issue seeks to highlight innovative diagnostic tools, techniques, and approaches, with a focus on improving clinical outcomes and enhancing patient care. Contributions will cover a wide range of topics, including, but not limited to, the development of new diagnostic biomarkers, the use of artificial intelligence and machine learning in dermatology, the role of imaging technologies, and advancements in the early detection of skin and sexually transmitted diseases. The scope of this Special Issue will also encompass case studies, diagnostic challenges, and the integration of multidisciplinary practices in diagnosing complex dermatological and venereological disorders. This Special Issue aims to serve as a valuable resource for clinicians, researchers, and healthcare professionals involved in the diagnosis and treatment of dermatological and venereological diseases, fostering the exchange of knowledge and the promotion of best practices within the field.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
