

Special Issue

Diagnosis, Management, and Prognosis of Liver Disease and Its Syndromes, Second Edition

Message from the Guest Editor

This Special Issue on the “Diagnosis, Management, and Prognosis of Liver Disease and Its Syndromes” covers all aspects of the well-established diagnosis, management, and prognosis of acute/chronic liver disease and its syndromes, as well as new diagnostic tools, the development of treatment modalities, and novel prognostic markers. Examples of such markers include obeticholic acid or semaglutide for non-alcoholic steatohepatitis (NASH) and the neutrophil-to-lymphocyte ratio (NLR) as an indicator of the severity of steatosis and fibrosis.

Guest Editor

Dr. Chien Hao Huang

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
