

Special Issue

Recent Advances in the Diagnosis and Management of Respiratory Diseases

Message from the Guest Editor

This Special Issue, titled "Recent Advances in the Diagnosis and Management of Respiratory Diseases", focuses on the latest developments in diagnostic techniques for respiratory disorders. It presents cutting-edge research on innovative imaging technologies, such as advanced computed tomography and magnetic resonance imaging, which enhance the early detection and precise characterization of lung abnormalities. Furthermore, the Special Issue explores advancements in molecular diagnostics, including the use of biomarkers and genetic testing, which are crucial for personalized medicine and tailored treatment plans. Contributions also highlight the integration of artificial intelligence and machine learning in diagnostic algorithms, improving the accuracy and efficiency of respiratory disease identification. Overall, this collection offers a comprehensive view of the evolving landscape in respiratory disease diagnosis, aiming to optimize patient care and outcomes.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
