Updates in Vascular and Endovascular Surgery: Pathology, Diagnosis and Management

Message from the Guest Editors

As we all know, technology has made significant advances in the field of vascular surgery, from diagnosis to the treatment of both arterial and venous diseases.

Due to these ongoing innovations, it is becoming increasingly important to understand their proper application and real utility in diagnosing and treating vascular diseases. Accurate clinical research and the creation of international collaborative networks are essential in this context. The aim of this Special Issue is to investigate the functioning, application, and short-, medium-, and long-term outcomes of the tools currently available in vascular and endovascular surgery. We welcome the submission of original research articles, reviews, short communications, case reports, and interesting images on the following topics:

- Diagnosis and surgical and/or endovascular treatment of the aortic arch, thoracic aorta, thoraco-abdominal aorta, abdominal aorta, iliac arteries, supra-aortic trunks, and lower limb arteries;
- Diagnosis and surgical and/or endovascular treatment of complex venous diseases and lower limb pathologies.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
