

## Special Issue

# New Trends in Musculoskeletal Imaging

### Message from the Guest Editor

“New Trends in Musculoskeletal Imaging” will be a special forum for specialists and sub-specialists of mobility medicine to share developments in classic and novel management techniques, particularly relevant for the world’s aging population and young people who suffer from genetic and acquired diseases of the skeletal muscles and their associated tissues (fascia, tendons, joints, and nerves). The keywords below list the many different specialists who we hope will be interested in providing their suggestions and/or criticisms. However, it is necessary to underline that, without a correct diagnosis, any management intervention could be at risk of increasing, rather than decreasing, patient discomfort. Furthermore, this topic interests the entire population, regardless of age, because prevention measures must start from a defined knowledge of each individual. The linked two special issues can provide further information for any interested authors.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
