

## Special Issue

# Machine Learning in Signal and Image Analysis for Biomedical Application: 2nd Edition

### Message from the Guest Editors

Recent advancements in artificial intelligence and technologies for monitoring or diagnosing health are making great progress and open many opportunities in improving healthcare. However, there are still many challenges, including a longer processing time, lack of sufficient data, difficulty in labeling, and the heterogeneity of data. The goal of this Special Issue is to publish original manuscripts and the latest research regarding machine learning techniques that can be used for sensing or imaging in biomedical applications and predicting diagnosis or prognosis from medical images or signals. We welcome submissions describing new cutting-edge machine learning and deep learning methods that address existing problems in the biomedical and health fields. Topics of interest include but are not limited to:

- Machine learning algorithms for medical image analysis;
- Disease classification and prognosis prediction;
- Segmentation and anomaly detection;
- Medical image denoising and quality improvement;
- Medical image registration;

---

### Guest Editors

Dr. Azhar Zam

Division of Engineering, NYU Abu Dhabi and Tandon School of Engineering, New York University, New York, NY, USA

Dr. Esa Prakasa

Research Center for Data and Information Sciences, The National Research and Innovation Agency (BRIN), Bandung, West Java, Indonesia

---

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
