

Special Issue

Recent Advances in Clinical Biochemical Testing

Message from the Guest Editor

This Special Issue aims to provide a comprehensive overview of the latest developments and innovations in the field of clinical biochemical testing. This special issue will cover a wide range of topics related to the advancement of biochemical testing, including but not limited to novel biomarkers, advanced analytical techniques, and emerging technologies in the field of clinical biochemistry. The scope of this special issue encompasses research articles, review papers, and original studies that highlight the significant contributions and impact of biochemical testing on clinical diagnosis, disease monitoring, and personalized medicine. The papers included in this special issue will provide valuable insights into the current state of the art in clinical biochemical testing and offer perspectives on future directions and potential applications in the field. Researchers, healthcare professionals, and industry experts are invited to contribute to this special issue to facilitate knowledge exchange and promote advancements in clinical biochemistry.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
