

Special Issue

Diagnostic Radiology of the Rheumatic Diseases

Message from the Guest Editor

The role of imaging in the diagnosis, follow-up and treatment response assessment in rheumatic diseases is well recognized. This is true both for musculoskeletal manifestations and systemic involvement resulting in organ damage. Alongside traditional methods, the recent technological development provided us with functional and novel emerging techniques, especially new magnetic resonance sequences, which can be used to obtain information in the early phases of rheumatic diseases or to identify subtle modifications during treatment. This Special Issue will collect original research articles and review articles seeking to address state-of-the-art and innovative imaging methods, as well as traditional and new imaging features to be used to diagnose rheumatic diseases and monitor disease activity during and after treatment.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
