

Special Issue

Meningioma: Radiomics, Diagnosis and Management

Message from the Guest Editor

This Special Issue delves into the multifaceted landscape of meningiomas, providing a comprehensive exploration of radiomics, diagnostics and treatment strategies. Meningiomas, though generally benign, present complex challenges due to their diverse manifestations and potential for neurological impact. This issue amalgamates cutting-edge research, encompassing the evolution of radiomics in meningioma diagnosis and prognosis prediction, leveraging advanced imaging techniques for enhanced precision. Contributions within this issue elucidate diagnostic intricacies, emphasizing the pivotal role of radiomics in characterizing meningiomas with precision and accuracy. Experts from diverse disciplines, including neurosurgery, radiology, oncology and pathology, converge within this issue, fostering interdisciplinary insights critical for a holistic understanding of meningioma management. Ultimately, this Special Issue serves as a cornerstone, propelling the field forward by synthesizing contemporary research, fostering dialogue and paving the way for further advancements in the diagnosis and management of meningiomas.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
