

## Special Issue

# Optimizing Personalized Radiation Dose in Computed Tomography: Justification and Diagnostic Reference Levels

### Message from the Guest Editor

This Special Issue focuses on optimizing personalized radiation doses and establishing DRLs for CT in various patient groups. CT technology's rapid advancements require strategies balancing high diagnostic quality with minimal radiation exposure, especially for vulnerable populations. We're interested in radiation dosing rationale using DRLs as safety benchmarks.

Submissions on advanced dose management techniques, like AI-enhanced optimization, automated dose monitoring, and personalized protocols, are welcome. The issue aims to discuss technologies improving radiation dose rationale and personalization, addressing DRL implementation challenges in diverse clinical settings. We'll explore strategies optimizing image quality while reducing radiation, focusing on innovative reconstruction and AI-driven solutions. We invite submissions from radiologists, medical physicists, and CT technologists in clinical and research settings, especially those developing advanced imaging procedures. Original research and comprehensive reviews are encouraged.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
