

Special Issue

Advances in the Diagnosis and Management of Chronic Disease

Message from the Guest Editor

This Special Issue, titled “Advances in the Diagnosis and Management of Chronic Disease”, highlights cutting-edge innovations in the early detection, risk stratification, and monitoring of chronic conditions, emphasizing non-invasive biomarkers, digital health tools, and multidisciplinary approaches. For example, studies on non-invasive biomarkers for early chronic kidney disease screening, or digital health tools for diabetes self-management and heart failure remote monitoring, would be in line with our focus. By integrating artificial intelligence, genomics, and patient-centered technologies, the collection aims to refine diagnostic accuracy, reduce disease progression, and optimize long-term outcomes. Contributions span translational research, real-world data analysis, and novel diagnostic frameworks to address unmet needs in chronic disease care.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
