Advances in the Diagnosis and Management of Urologic Diseases

Message from the Guest Editors

Urology continues to serve as a prime example of ongoing innovation and advancement in the ever-changing field of medicine. There is a wide spectrum of diseases that affect the urinary system and the male genitalia, varying from benign to cancerous and harmless to incapacitating. Recent advancements in diagnostics have allowed medical practitioners to identify urological disorders with previously unprecedented accuracy. Regarding the development of treatment strategies, there has been a paradigm shift toward minimally invasive urological surgery that prioritizes patient-centered therapy and technology improvements. This Special Issue welcomes the submission of papers that could deepen our understanding of the diagnosis and treatment of urologic diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
