

## Special Issue

# Imaging for the Diagnosis of Obstetric and Gynecological Diseases—2nd Edition

### Message from the Guest Editor

We invite you and your research group to submit an article to our Special Issue entitled “Imaging for the Diagnosis of Obstetric and Gynecological Diseases—2nd Edition”. This is the second volume of this Special Issue; we published more than five papers in the first volume. For more details, please visit the following webpage:

[https://www.mdpi.com/journal/diagnostics/special\\_issues/1CR61574P8](https://www.mdpi.com/journal/diagnostics/special_issues/1CR61574P8)

Imaging methods for the diagnosis of obstetric and gynecological diseases involve the use of various imaging techniques, such as ultrasound, MRI, and CT scans, in order to assess conditions related to women or fetal diseases. These techniques are often used in daily medical activities and, for this reason, our aim is to collect interesting and educational papers on imaging related to our field. Additionally, imaging plays a crucial role in pregnancy monitoring, fetal development evaluation, and diagnosing other conditions. The accurate interpretation of imaging results is essential in guiding appropriate treatment and management strategies for patients with obstetric and gynecological diseases.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
