New Insights into the Diagnosis of Gynecological Diseases

Message from the Guest Editor

Advancements in the diagnosis of gynecological diseases have ushered in a new era of precision medicine, enabling earlier detection, improved prognostic accuracy, and tailored treatment strategies. With the integration of novel biomarkers, cutting-edge imaging technologies, and artificial-intelligence-driven tools, the landscape of gynecological diagnostics is rapidly evolving. These innovations address longstanding challenges associated with conditions such as ovarian cancer, endometriosis, uterine fibroids, and gynecological infections, where early and accurate diagnosis remains pivotal for optimal patient outcomes. This Special Issue focuses on exploring these advancements, as well as highlighting breakthroughs in molecular diagnostics, next-generation sequencing, and the role of big data in enhancing clinical decision-making. By bringing together interdisciplinary research and clinical expertise, we aim to provide a comprehensive overview of the emerging trends and transformative technologies that are shaping the future of gynecological healthcare.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
