New Perspectives in Forensic Diagnosis

Message from the Guest Editors

Recently, molecular autopsy has been highlighted as a substantial approach for establishing a genetic diagnosis in cases of “negative” autopsy. Sophisticated and promising methods and diagnostic strategies (biomarkers, proteomics, metabolomics, genomics, etc.) and their usefulness in forensic practice are also under exploration. It is consequently obvious that a multidisciplinary and integrated approach is of paramount importance in the forensic investigation of a considerable number of cases, especially in light of the rapid scientific and technological progress. Groups from all related specialties and fields are encouraged to submit original research, short reports, reviews, commentaries, and case reports/case studies that provide new insights into the above related issues.

Guest Editors

Dr. Stavroula A. Papadodima

Department of Forensic Medicine and Toxicology, School of Medicine, National and Kapodistrian University of Athens, Athens, Greece

Dr. Laurent Martrille

Department of Forensic Medicine, CHU Montpellier, University of Montpellier, Montpellier, France

Deadline for manuscript submissions

31 August 2025

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
