Inflammatory Bowel Disease (IBD): New Trends in Diagnosis and Management—2nd Edition

Message from the Guest Editor

The prevalence of inflammatory bowel diseases is progressively increasing worldwide, affecting approximately six million patients. It is well established that the IBD-associated tissue damage process is induced by an exaggerated immune response against luminal antigens and that it is affected by genetic predisposition and environmental factors, although etiology remains unclear. An early and accurate diagnosis may still be a challenge, and there is a lack of “gold-standard” treatment; this may impact future management through a variety of complications and disabilities. This Special Issue will review all the diagnostic modalities with a focus on possible management-related consequences in order to achieve more precise and individualized care.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
