Gynecological Oncology: Advanced Diagnosis and Management in 2025

Message from the Guest Editors

Gynecological oncology is rapidly evolving, with a growing demand for advancements in diagnosis and management strategies. The need for early detection, improved treatment options, and a better understanding of the underlying mechanisms of gynecological cancers has never been more important. This Special Issue aims to bring together leading experts, researchers, and clinicians from around the world to share their insights, innovations, and research findings related to gynecological oncology. We welcome manuscripts on the etiology, diagnosis, and treatment of female cancers from early to advanced stages, as well as research from any discipline related to this area of interest. To ensure the highest quality of contributions, we assembled a distinguished panel of experts to serve as for this Special Issue. We believe that the publication of this Special Issue in *Diagnostics* will serve as a valuable resource for clinicians, researchers, and healthcare professionals involved in the care and management of gynecological oncology patients. It will also contribute to the overall advancement of our understanding of these complex diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
