

## Special Issue

# Diagnosis and Treatment of Cardiac Diseases

### Message from the Guest Editors

The world of cardiology moves at a fast pace, with new practice-changing studies emerging almost every week. Even small studies and analyses are very important to enable progress in research, especially when the causes and effects of treatment in daily clinical practice are documented. This Special Issue is devoted to novel and established therapies in cardiology, from bench to bedside, from diagnosis to treatment and prevention. Thereby, we seek to actively take part in the fascinating journey of cardiology research, to enhance the diagnosis and treatment of patients with all kinds of cardiac diseases in the future.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
