Advances in the Diagnosis and Management of Thyroid Cancer

Message from the Guest Editor

Thyroid cancer is the most common malignancy of the endocrine system. Its prevalence has steadily increased worldwide in recent decades, and it is now the most commonly diagnosed cancer in women in many countries. The prognosis and treatment of thyroid cancer depend on the tumor type and its stage at the time of diagnosis. Early diagnosis and appropriate treatment can improve prognosis and reduce recurrence. This Special Issue focuses on the development of technologies such as high-resolution ultrasound, fine-needle aspiration biopsy, and genetic testing, which have made the early detection and diagnosis of thyroid cancer more accurate. These techniques can help doctors detect small cancer foci earlier, providing a better chance of early treatment.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
