

## Special Issue

# 18F-FDG PET/CT: Current and Future Clinical Applications

### Message from the Guest Editor

Imaging with 18F-FDG PET/CT has been used in clinical practice for several decades. With its unique ability to combine metabolic activity with anatomical correlation of CT, it can be analyzed qualitatively or quantitatively and helps clinical decision making in both adult and pediatric healthcare.

Innovations in standardization, quantification, diagnostic performance, and follow-up have been made over the past few years and is still ongoing due to extensive research effort from the scientific community within this field. Therefore, committed researchers focusing on metabolic imaging with 18F-FDG PET/CT are invited to contribute to this Special Issue. Potential topics include (but are not limited to) standardization, quality control, diagnostic performance, and future experimental developmental research. Clinical, preclinical, and phantom studies are welcome.

---

### Guest Editor

Dr. Virginie Frings

Department of Pediatrics, Maastricht University Medical Center, MUMC+, Maastricht, The Netherlands

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
