# Clinical Diagnosis and Management in Emergency and Hospital Medicine

### Message from the Guest Editor

With the advent of new disciplines and technologies providing high-quality, high-value care for patients, we are entering a new era in emergency and hospital medicine. However, challenges to generalists persist because both emergency care and hospitalizations involve managing complex patients in diverse situations. Clinical diagnosis and management of these patients require a comprehensive process design, quality improvement, competent training and skills, and the integration of the entire healthcare system. Although most randomized clinical trials enroll participants in emergency and inpatient settings, the primary outcomes are usually tracked outside the hospital. More research is needed to improve evidence-based practice in the field of emergency and hospital medicine so that we can improve the quality of care in the hospital. Highlighting key interventions during the early admission timeframe is necessary. Outcomes assessed during hospitalization or shortly after discharge are crucial, alongside long-term outcomes. We welcome research papers on any aspect related to this theme, including diagnosis, treatment, management, decision making, transitional care, and palliative care.

### Guest Editor

Dr. Nin-Chieh Hsu

1. Department of Internal Medicine, College of Medicine, National Taiwan University, Taipei 10051, Taiwan
2. Division of Hospital Medicine, Department of Internal Medicine, Taipei City Hospital Zhongxing Branch, Taipei 103212, Taiwan

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
