Diagnostic Imaging and Cytopathology Testing in Tumor Detection

Message from the Guest Editor

As one of the prevalent causes of death in the world, tumors are associated with highly variable clinical and biological scenarios. The early diagnosis of tumors and precision medicine can greatly enhance patient survival rates. Our aim is to optimize the clinical workflow by combining accurate diagnosis with appropriate treatment. Techniques such as diagnostic imaging and cytopathology testing provide reliable diagnostic and prognostic biomarkers for precise oncology. These technological advancements can significantly enhance the accuracy of disease diagnosis and provide guidance for appropriate tumor care and prognosis. This Special Issue will provide a platform for researchers and practitioners to publish original research articles that address state-of-the-art and novel methodologies and applications for oncological image analysis.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
